Operational Description (ZA-5000-E)

ZA-5000-E

SETUP OF EQUIPMENT UNDER TEST

The "**Radiotest**"software (by SSH) was used for testing.

(1) TX Mode

    \<F>ramed data→\<5>PN9→\<0>6Mbps (IEEE 802.11a / IEEE802.11g mode)

(2) RX Mode

    \<R>x

All of the Function are under run.

ZA-5000-E is an AP used indoor and outdoor device.
One RF module design
Module model name:AG-621, FCC ID: M4Y-0AG621
AG-621 provide IEEE 802.11a+b+g,
One module just use IEEE 802.11a function.
So ZA-5000-E use IEEE 802.11a technology.
IEEE 802.11a: 5.725GHz~5.825GHz
